JETanchor

SERVICE:	Light Dive Craft	WATERJETS:	Twin HJ322 with blueARROW and JETanchor
LOCATION:	Husøyvegen, Norway	ENGINES:	Twin Yanmar 6LY440
LENGTH:	14.9 metres	BUILDER:	Hukkelberg
BEAM:	3.8 metres	OPERATOR:	Techno Dive
CONSTRUCTION:	Aluminium	HJ DISTRIBUTOR:	Progress Ingeniorfirma A/S
SPEED:	33 knots		

This vessel is equipped to perform most subsea inspection, service and maintenance jobs in the Norwegian aquaculture industry. The vessel is 14.9 metres long and almost 3.8 metres in beam. It is equipped with twin Yanmar 6LY440 engines driving HJ322 waterjets from HamiltonJet, giving the vessel a top speed of around 33 knots fully loaded. It also has HamiltonJets blueARROW manoeuvring system and JETanchor positioning system, making manoeuvring and handling of the vessel simple, as well as reducing fuel consumption and wear on the machinery.
